

Put a lid on it!

Can you guess what product packaging these lids are used for?

Deodorant

Tomato Sauce

Whipped cream

Fruit drink

Bottled water

Cordial

Soy milk

Milk bottle

Milk bottle

Milk bottle

Milk bottle

Fruit juice bottle

Vegemite

Cream

Shampoo

Strawberry flavoured milk

Softdrink - Coke

Why do you think these colours are used for the type of product?
Green, yellow, blue for milk?
Red for cream?
Blue for shampoo?

ACTIVITY

Collect some plastic bottles with lids, make sure they are washed and clean! (We do not want mould in this activity!)

Take a photo of the bottles with their lids, or write down what type of product each lid was for eg: Cordial bottle lid (This way you will have the answers once you remove the lids from the bottles!)

Write a word card representing each type eg: Milk bottle

Separate the lids away from the bottles

Place the lids on a table where people can see each one and leave a stack of the word cards on the side of the table

Ask friends to try to match the word card to the correct lid! Who scored the highest?!

Why do you think each lid is a different colour?

Do the different colours mean anything to you?

Lots of people make amazing things like artistic murals and giant sculptures using plastic lids. What kind of things would you make if you recycled these plastic lids?
